**AE/MS from page 40**

rooms of the upper level have skylights that brighten with natural light the area of the room away from the windows on the exterior walls that go all the way to the ceiling.

The cafeteria is a spacious area that will provide a comfortable area for students to have lunch. Previously, tables were set up on the stage. Now the stage will be open and available for its intended use.

The main entrance to the school has been relocated. To enter the school and access the administrative offices, one

must now enter through the doors that open into the lobby next to the gym. The secretary and principal's offices are located just to the right as you enter the lobby. The entry doors have been upgraded for student safety.

With only a few days left before students return, it looked to me that it would be impossible to have things ready on time. On the other hand, after walking through the school and seeing the level of activity and effort by the construction crews and the staff of AE/MS, they just might be able to do it. I don't think the Labor Day weekend will be a vacation for any of them this year!
