Route 11 to New London

Routes 4 and 11 to Andover

Depot Street

Rail Trail Box Culvert

New Parking Lot

Raise Route 4's grade to bring it up to level of new road

Remove bridge - install box culvert for Rail Trail - fill in underpass - build new road and intersection at about the same level as today's bridge.

Remove existing ramps

New connector to Depot Street

DOT Plans To Remove Bridge In Potter Place

Representatives from New Hampshire Department of Transportation presented to the Board of Selectmen and the public the latest plans for replacing the bridge at Potter Place with two simple intersections and a box culvert to carry the Rail Trail under the road. The project is currently planned for 2009 and should take four or five months to complete. For more details, see the minutes of the meeting on page 12.

Irving's Blue Canoe Opens In Cilleyville

Irving Oil announced today that it is adding five new locations by purchasing five Foodstop Inc. stores in Andover, Hanover, and West Lebanon, New Hampshire, and in Hartford and White River Junction, Vermont.

The new Irving location in Andover is at 718 Main Street in Cilleyville, next to RP Johnson and Son. Signage and employee uniforms have already changed. While there may be some minor changes in the product offerings right away, customers will not see drastic changes to food and convenience choices immediately. Irving will take time to assess the needs and desires of its new customers before implementing any widespread changes.

Foodstop will continue to operate the Videostop video store that's upstairs, according to co-owner Jean Molloy.

"After countless hours of consideration, we feel this is the right decision at the right time, and Irving is the best company to take over the business we have spent years building," said Brian Molloy, co-owner of Foodstop, Inc. "It has been our privilege to work with some of the best employees, customers, and vendors in the Upper Valley and we value the many relationships we have developed in this business over the years. We would like to take this opportunity to thank our past and present employees for their hard work and dedication, and our many customers for over three decades of patronage."

Fuel the Care

This October marks the fifth year of Irving Oil's Fuel the Care program. The program helps families pay for fuel when they drive between home and hospital for their children's medical care. To celebrate this anniversary, Irving Oil will donate \$200,000 to the

program this month.

Since 2002, Irving's Fuel the Care has provided more than \$1 million in gift certificates, assisting more than 12,000 children and their families in Atlantic Canada and New England.

"When a child has to visit or stay in a hospital for medical care, the last thing a parent should have to worry about is travel costs," says Rob Wilson, Public Affairs Manager for Irving Oil. "Through Fuel the Care, we hope to lessen that stress and keep families together during what is often a difficult time. The Children's Hospital at Dartmouth Hitchcock (CHaD) and Eastern Maine Healthcare System hospitals do fantastic work in helping sick children. We are proud to continue our partnership with these hospitals."
