Use the form on page 4 to start your subscription today!

Donations in excess of the \$25 subscription price are tax deductible to the extent allowed by law.

**Where Are They Now?**

**Amaliya Jurta**

By Mary Ofenloch  
 Andover Service Club President

Could you live in a home with no plumbing, no running water, and no electricity? Well, in the mid-1980's, Amaliya Jurta, her parents, two younger sisters, and her younger brother did. Amaliya's father was ill, so as the oldest child, much of the work became her responsibility. She hauled wood for heating and cooking and brought water from the nearby spring.

Amaliya then ...

Amaliya says she "loved living in the woods." She is thankful for her life at that time. It made her appreciate the way her parents raised her, and it gave her the opportunity to love reading (no TV, no computer, no distractions).

Amaliya was an outstanding student in elementary school, winning the New Hampshire State Spelling Bee when she was in eighth grade, giving her the opportunity to compete nationally in Washington, D.C.

Brenda Jurta, Amaliya's mother, said, "I was very proud when Amaliya was accepted into Proctor Academy. She was really very bright as a child, a focused student who studied hard. As the oldest child, she had lots of responsibility, but she always looked forward to challenges in her life."

While a student at Proctor Academy, Amaliya continued to be outstanding academically. She was an

honor student during her four years at Proctor, and on the Headmaster's list each year. She won the Music Award for Saxophone in ninth grade, and the Colby Book Prize in eleventh grade.

In her junior year, Amaliya was elected President of the Student Council. As a sports enthusiast, she was voted Most Valuable Player of her Junior Varsity soccer team and Most Improved Player on Varsity lacrosse.

In 1994, Amaliya applied for an Andover Service Club (ASC) Merit Scholarship Award. Her academic history included a nine-week stay in France where she was able to experience life in another culture and speak the language she studied and loved during her time at Proctor.

The review committee awarded a \$1500 scholarship to Amaliya for her entrance into Cornell University, where she majored in French Area Studies with a concentration on Linguistics.

While at Cornell, Amaliya studied French, Czech, and Japanese. Shortly after her graduation in 1998, she moved to Washington, D.C. to work in the office of US Senator Judd Gregg. While in the D.C. area, she worked at the Association for Women in Science, then for the National Academy of Science.

In 2002, Amaliya moved to Evanston, Illinois to attend See Jurta on page 42

... and now.

**Andover Resident Works At Wilmot Town Hall**

The Concord Monitor, in its Wilmot Town Crier section, had this news of an Andover resident:

Next time you are in the [Wilmot] town office building next to the [Wilmot] town green and bandstand, please say hello to new secretary Kim White of Andover. She is not new to the area. In fact, her family vacationed here

before she settled here in 1984.

In 1998, White owned the building housing our post office until 2003. She now lives in Potter Place in a wonderful 1790s house right on the banks of the Blackwater River. She has three grown children and two grandchildren. Be sure to welcome her when you see her.

**Hospital from page 39**

President and CEO of the AHA. "I am very proud of the IS Team, the physicians and nurses, and the support staff who made this achievement possible," said Bruce King, President and CEO of New London Hospital. "Given the pace of change in healthcare

and the importance of data, IT systems are a critical analytical tool that can deliver real-time information to our clinicians to be used to make safe, informed patient-care decisions."

The July *Hospitals & Health Networks* magazine cover story detailing the Most Wired designation is available at [HHNmag.com](http://HHNmag.com).
